Professional Profile

Motivated IT and Computer Science graduate with hands-on experience in software development, application support, and troubleshooting. Skilled in ReactJS, JavaScript, HTML, CSS, Tailwind CSS, Node.js, Firebase, and MongoDB, with practical experience gained through the CodeTribe mLab Software Development Programme, where I contributed to real-world projects and collaborated in agile team environments. Currently expanding my knowledge of cloud computing through AWS Cloud Practitioner Essentials, Microsoft Azure, Linux, Kubernetes, and cloud-native technologies. I have also completed cybersecurity training through the Southern Africa Cybersecurity School and Artificial Intelligence Fundamentals through WeThinkCode. Passionate about delivering reliable technical support, solving complex problems, providing excellent customer service, and continuously learning new technologies to improve user and business outcomes.

Core Skills

- Application Support & Troubleshooting
- IT Help Desk Support
- Software Testing & Bug Reporting
- ReactJS, JavaScript, HTML, CSS, Tailwind CSS
- Node.js, Firebase, MongoDB
- Microsoft Azure, AWS Cloud Fundamentals, Kubernetes, Linux
- C# Fundamentals
- Application Support and Troubleshooting
- Testing and Bug Reporting
- Git and GitHub
- Microsoft Word, Excel, PowerPoint, Outlook, Teams
- Communication and Team Collaboration
- Problem Solving and Analytical Thinking
- Time Management and Adaptability

Certifications

- AWS Cloud Practitioner Essentials, AWS Training & Certification, 2025
- Southern Africa Cybersecurity School Programme
- Artificial Intelligence Fundamentals, WeThinkCode
- Microsoft Azure Fundamentals (AZ-900), exam completed currently preparing for rewrite

Professional Development

- Microsoft Azure Fundamentals (AZ-900), exam completed currently preparing for rewrite.
- Continuing professional development in cloud computing and modern IT technologies.
- Learning Microsoft Azure, Linux, Kubernetes, and cloud technologies.

Technical Experience CodeTribe mLab Software Development Programme

- Developed web and mobile applications using ReactJS and JavaScript
- Assisted with debugging, testing, and resolving application issues
- Collaborated with teams on software projects and presentations
- Improved application usability and functionality
- Documented processes and explained technical functionality to non-technical users

Gym Mobile Application Project

- Developed a functional fitness mobile application as part of a team project
- Built using React Native and ReactJS
- Focused on user-friendly design and responsive functionality

Projects Weather Application

- Built a real-time weather application with forecast functionality
- Implemented responsive UI and location-based weather features

To-Do List Application

- Developed a CRUD to-do list application with task priority management

- Used ReactJS and local storage features **Recipe Application**
- Built a recipe management application with search, add, update, and delete functionality
- Implemented responsive design and user-friendly interfaces

Programmes and Achievements

- Participant, FNB Software Development Programme
- Participant, FNB Hackathon, collaborated in a team to design and present a software solution within limited timeframes
- Completed CodeTribe mLab Software Development Programme
- Completed Southern Africa Cybersecurity School Programme

Education EWC TVET College

NCV in IT and Computer Science, 2024 Modules

included:

- Visual Basic .NET
- SQL
- HTML and CSS
- JavaScript
- System Setup and Application Development
