Professional Profile

Motivated **IT & Computer Science graduate with an NCV qualification** and hands-on experience in software development. Familiar with **HTML, CSS, JavaScript fundamentals, React, React Native, Node.js, Firebase, and Figma**. Gained practical development experience through the **CodeTribe mLab Software Development Programme**, contributing to web and mobile applications, debugging, testing and collaborative projects.

Currently expanding my knowledge of **Microsoft Azure and cloud computing**, including preparation for the **Azure Fundamentals (AZ-900)** certification. Passionate about software development, user interface design, problem-solving, and building user-friendly applications.

Core Skills

- HTML & CSS
 - JavaScript Fundamentals
 - React & React Native Fundamentals
 - Node.js
 - Firebase
 - Figma
 - Git & GitHub
 - UI Development
 - Application Support & Troubleshooting
 - Testing & Bug Reporting
 - Problem Solving & Attention to Detail
 - Communication & Team Collaboration
-

Ongoing Learning

- Microsoft Azure Fundamentals (AZ-900)
 - Cloud Computing Fundamentals
-

Technical Experience

CodeTribe mLab Software Development Programme

- Developed web and mobile applications using ReactJS and JavaScript
- Assisted with debugging, testing, and resolving application issues
- Collaborated with teams on software projects and presentations
- Improved application usability and functionality
- Documented processes and explained technical functionality to non-technical users

Gym Mobile Application Project

- Developed a functional fitness mobile application as part of a team project
- Built using React Native and ReactJS
- Focused on user-friendly design and responsive functionality

Projects

EARCO | E-Commerce Website

- Built a responsive headphone e-commerce website using HTML, CSS and JavaScript.
- Designed a clean and user-friendly interface.
- Added product sections and interactive elements.

To-Do List Application

- Developed a CRUD to-do list application with task priority management
- Used ReactJS and local storage features

Ride Application

- Contributed to a ride-booking application using React and JavaScript.
- Improved features, responsiveness, and user experience.
- Assisted with debugging and testing.

Programmes and Achievements

- Participant, FNB APP OF YEAR
- Participant, FNB Hackathon, collaborated in a team to design and present a software solution within limited timeframes
- Completed CodeTribe mLab Software Development Programme

Education

EWC TVET College

NCV in IT and Computer Science, 2024

Modules included:

- Visual Basic .NET
- SQL
- HTML and CSS
- JavaScript
- System Setup and Application Development
